6. PURCHASER REPRESENTATIONS

6.1. **Authorization.** The Purchaser has full power and authority to enter into this NLPA. This NLPA, when executed and delivered by the Purchaser, will constitute valid and legally binding obligations of the Purchaser, enforceable in accordance with their terms, except as limited by applicable bankruptcy, insolvency, reorganization, moratorium, fraudulent conveyance, and any other laws of general application affecting enforcement of creditors' rights generally, and as limited by laws relating to the availability of specific performance, injunctive relief, or other equitable remedies.

6.2. **Purchase Entirely for Own Account.** This NLPA is made with the Purchaser in reliance upon the Purchaser's representation to the Company, which by the Purchaser's execution of this NLPA, the Purchaser hereby confirms, that the Node Licenses to be acquired by the Purchaser will be acquired for investment for the Purchaser's own account, not as a nominee or agent, and not with a view to the resale or distribution of any part thereof, and that the Purchaser has no present intention of selling, granting any participation in, or otherwise distributing the same. By executing this NLPA, the Purchaser further represents that the Purchaser does not presently

have any contract, undertaking, agreement or arrangement with any Person to sell, Transfer or grant participations to such Person or to any third Person, with respect to any of the Node Licenses. The Purchaser has not been formed for the specific purpose of acquiring the Node Licenses.

6.3. **Disclosure of Information.** The Purchaser has sufficient knowledge of and experience in business and financial matters to be able to evaluate the risks and merits purchase of this NLPA and of the Node Licenses and is able to bear the risks thereof. The Purchaser has had an opportunity to discuss the Company's business, management, financial affairs and the terms and conditions of the Offering of the Node Licenses with the Company's representatives. The Purchaser has not relied on any representations or warranties made by the Company outside of this instrument, including, but not limited to, conversations of any kind, whether through oral or electronic communication, or any white paper or website.

6.4. **Compliance with Securities, Commodities, & Other Laws.** The Purchaser understands that the Node Licenses have not been, and will not be, registered under the Securities Act or any applicable state securities laws, by reason of a specific exemption from the registration provisions of the Securities Act and other applicable state securities laws which depends upon, among other things, the bona fide nature of the investment intent and the accuracy of the Purchaser's representations as expressed herein. The Purchaser understands that the Node Licenses may be deemed "restricted securities" under applicable United States federal and state securities laws and that, pursuant to these laws, the Purchaser must hold the Node Licenses indefinitely unless they are registered with the Securities and Exchange Commission and qualified by state authorities, or an exemption from such registration and qualification requirements is available. The Purchaser acknowledges that the Company has no obligation to register or qualify the Node Licenses for resale, and exemptions from registration and qualification may not be available or may not permit the Purchaser to transfer all or any of the Node Licenses in the amounts or at the times proposed by the Purchaser. The Purchaser further acknowledges that if an exemption from registration or qualification is available, it may be conditioned on various requirements including, but not limited to, the time and manner of sale, the holding period for the Node Licenses, and on requirements relating to the Company which are outside of the Purchaser's control, and which the Company is under no obligation and may not be able to satisfy. The Purchaser is not registered with the U.S. Securities and Exchange Commission as a broker-dealer, alternative trading system or exchange, and is not a member of the U.S. Financial Industry Regulatory Authority ("**FINRA**") nor is required to be registered with the U.S. Securities and Exchange Commission or is subject to the rules of FINRA. The Purchaser has also been advised that this Agreement has not been approved for trading by the CFTC. The Purchaser represents that it is not purchasing this Agreement on the basis that it is a contract of sale of a commodity for future delivery (or option on such a contract), a swap or any other instrument subject to the CEA. The Purchaser further understands that neither the Company nor any Affiliate is licensed as a money transmitter ("**MT**") or a money services business ("**MSB**"). If the Company or any Affiliate were deemed to be an MT and/or MSB, it would be subject to significant additional regulation. This could lead to significant changes with respect to the Company Platform, how the Node Licenses are structured, how they are purchased and sold, and other issues, and would greatly increase the Company's costs in creating and facilitating transactions in the Node Licenses. It could also lead to the termination of the Node Licenses. Further, a regulator could take action against the Company or any Affiliate if it views the Node Licenses and the Framework as a violation of existing law. Any of these outcomes would negatively affect the value of the Node Licenses and/or could cause the Company to cease operations.

6.5. **No Public Market.** The Purchaser understands that no public market now exists for the Node Licenses; that the Company has made no assurances that a public market will ever exist for the Node Licenses; and that the Company is under no obligation to register or qualify the Node Licenses for resale under the laws of any Governmental Authority.

6.6. **Accredited Investor.** Purchaser states that he, she, or it is an “accredited investor” as defined in Rule 501 of Regulation D promulgated under the Securities Act. The Purchaser has been advised that the offer and sale of this instrument and the Npde Licenses have not been registered under the Securities Act, or any U.S. state securities laws and, therefore, cannot be resold unless the resale is registered under the Securities Act and applicable U.S. state securities laws or unless an exemption from such registration requirements is available. The Purchaser is purchasing this instrument and the Node Licenses to be acquired by the Purchaser hereunder for its own account for investment, not as a nominee or agent, and not with a view to, or for resale in connection with, the distribution thereof, and the Purchaser has no present intention of selling, granting any participation in, or otherwise distributing the same. The Purchaser has such knowledge and experience in financial and business matters that the Purchaser is capable of evaluating the merits and risks of such investment, is able to incur a complete loss of such investment without impairing the Purchaser’s financial condition and is able to bear the economic risk of such investment for an indefinite period of time. The Purchaser hereby confirms that it has taken reasonable steps to verify that such Purchaser is an “accredited investor” as such term is defined in Rule 501 of Regulation D promulgated under the Securities Act.

6.7. **No Bad Actor.** Neither (i) the Purchaser, (ii) any of its directors, executive officers, other officers that may serve as director or officer of any Company in which it invests, general partners or managing partners, nor (iii) any beneficial owner of the voting equity securities of the Purchaser (in accordance with Rule 262 of the Securities Act) is subject to any of the disqualifying events listed in Rule 506(d)(1) of Regulation D under the Securities Act (a “***Purchaser Event***”), and there is no proceeding or investigation pending or, to the knowledge of Purchaser, threatened by any governmental authority, that would reasonably be expected to become the basis for a Purchaser Event.

6.8. **Legends.** The Purchaser understands that the Node Licenses may be deemed to bear any one or more of the following legends: (a) any legend required by the securities laws of any state to the extent such laws are applicable to the Node Licenses represented by the certificate so legended, and (b): the following legend (and even without such legend the following restrictions apply):
